As suggested by Peter Drucker, "[e]ffective leadership is not about making speeches or being liked; leadership is defined by results not attributes." Taking these words to heart will help guide the new officers to success.

## *Brotherhood*

•••

We believe in Lambda Chi Alpha... this is something that truly does exist for our chapter. The faith that we have in our brotherhood and fraternity are strong. As we close one chapter in the Iota-Sigma book we begin a new one. Soon the current seniors will depart from Valparaiso University and explore new frontiers. This nonetheless shall not be the end of the brotherhood that we know today. As future alumni they will take a new stand on brotherhood and reunite over the years. Though brothers be lost brotherhood shall not.
